- **Address:** Makati City, PH
- **LinkedIn:** linkedin.com/in/kim-lawis-de-guzman/

LICENCES AND CERTIFICATIONS:

- Microsoft AZ-204T00 - Developing Solutions for Microsoft Azure – Issued Dec 2020
- Microsoft AZ-500T00 - Microsoft Azure Security Technologies – Issued Nov 2020
- Microsoft Certified: Azure Fundamentals – Issued Aug 2020
- Philippine Career Civil Service Professional Eligibility – Issued Oct 2011

SKILLS:

- Programming Language:
 - C#.NET, MVC, ASP.NET Web Services, Core Web API, Javascript
- Frameworks/Libraries:
 - .NET Framework, ReactJS, NodeJS, MagicDraw(xUML), FTP/SFTP
- Version Control
 - Azure DevOps Git, SVN
- Database Management System
 - Microsoft SQL Server, MySQL, SQLite, SSIS, PostgreSQL Oracle
- SDLC
 - Waterfall, Agile
- Environment
 - Windows, Linux

EDUCATIONAL ATTAINMENT:

- Informatics Computer Institute – Tagbilaran, Bohol
- Course: BS in Information Technology
- School Year: 2007-2011

WORK EXPERIENCE:

- **Sprout Solutions, Inc. – Full-Time (Mar 2019 – Present)**
 - Position: Software Team Lead
 - Software and Platform: Visual Studio
 - Skillset Used: C#.NET, MVC, API, Azure, ReactJS, NodeJS, Kendo, CSS
- Project: **Sprout Payroll – Employee Payroll Management**
 - Maintaining the already existing software applications that manage and automate payroll processing by providing ongoing support and enhancements
 - Together with our product managers, working closely with HR, finance, and IT departments to ensure the payroll system meets organizational needs
- Project: **Sprout HR – Employee Management**
 - Augment and improve the existing HR system by integrating new modules and resolving system bugs, collaborated with our product managers to gather requirements then translate them into code
- **OneTool Solutions, Inc. – Project-based on Zuellig Pharma Asia Pacific (Mar 2017 – Dec 2018)**
 - Position: E2E Developer
 - Software and Platform: MagicDraw UML, SQLite
 - Skillset Used: xUML, MySQL, SVN
- Migrated existing V5 services to the new V6 environment.
- Handled inbound and outbound files being used by services through SVN.
- **WeSupport, Inc. – Project-based on Watsons (May 2015 – Dec 2016)**
 - Position: Software Developer
 - Software and Platform: Visual Studio, SQL Server, IIS 7
 - Skillset Used: C#.NET, ASP.NET, HTML, CSS, XML, Javascript, SSRS, MSSQL, Oracle.
- Project: **CRS**
 - Developed a local intranet web application for inventory tracking; Module being handled was Hermes (Email Messaging for assigned users for tracking).
- Project: **Conversion**
 - Developed queries/SSIS for passing of Items from text/excel files to database, for Hong Kong Servers
- Project: **Watsons Fixed Asset Management System**
 - The system already exists. However, there are some modifications made (major modifications). These are done to accommodate not only the tracking of assets but also purchase orders, step by step approval by signatories, and fixed asset tracking- this includes tracking assets, transferred assets and receiving of assets by store.
- Project: **Post Pick Audit Admin (PPA Admin)**
 - The system already exists and needs some modifications, like adding the login and the home (with charts) pages, adding tote grading for prioritization of totes that are to be scanned, store bulk uploads and report generation. This system is for checking the status of the tote, and for discrepancies of these being received (if any).
- **Software Laboratories, Inc. – Project-based on SM Corporation (Jan 2015 – Apr 2015)**
 - Position: Software Developer
 - Software and Platform: Visual Studio, MSSQL, IIS 7, IIS 8
 - Skillset Used: VB.NET, MSSQL, ASP.NET, HTML, CSS, Javascript, JQuery, XML
- Project: **SAP Business One - Report Printing**

- Developed a system for printing SAP business reports.
- Project: **Contract Creation and Management System**
 - Developed a program for new contracts for a tenant that would like to rent a specific space in the SM Store.
- **Information Professionals, Inc. – Contractual on Globe Telecom (Jan 2014 – Dec 2014)**

Position: Software Developer
 Software and Platform: Visual Studio, Navicat Premium, Putty, WinSCP
 Skillset Used: C#.NET, JSON, XML, Postgre SQL, Linux (Basic)

 - Project: **TextConnect 4 - LiteClient 8.1**
 - Enhance an existing system (Overhauled). TextConnect 4 is a system consisting of a web application (for settings and could be used just like the windows app) and a windows application (for message texting) texting the clients of info texts.
- **Alturas Supermarket Corporation – Full-Time (May 2011 – Dec 2013)**

Position: Software Developer
 Software and Platform: Visual Studio, Visual Foxpro, MSSQL, IIS 7, IIS 8
 Skillset Used: C#.NET, VB.NET, SQL

 - Project: **Human Resources Integrated System**
 - Developed a system to store employee information, including basic information, employment history, records of leave and violations.
 - Project: **Feedmill Supplies Tracking System**
 - Developed a system that prints barcodes, and these barcodes are used for tracking the location of a certain box of items.
 - Project: **Abenson Credit System**
 - Developed a system, where a certain customer can get an item/appliance from the store, where she/he is allowed only if s/he has a guarantor, and his credit limit is within the range given by the guarantor. Credit could be paid ranging from 6 months to 3 years, with system computed interest.
 - Project: **Foreign Exchange System**
 - Enhance the existing Forex System for additional features. The forex system is for currency exchange, with computations for the day.
 - Project: **PMO Raw Materials, Fixed Assets and Supplies In-house System**
 - Developed a fixed asset tracking system - this includes tracking of aging assets, transferred assets and receiving of assets by store, and approvals.
 - Project: **SPRP Raw Materials, Fixed Assets and Supplies In-house System**
 - Function is the same in PMO's system but modified for SPRP's exclusive use.
